Assistive technology helps people with disabilities fully access their world. This technology can be used as-is, or it can be modified or customized for an individual’s specific needs around the home, on the job, and in the community. The Vermont Assistive Technology Program is committed to helping people with disabilities of all ages get access to information about the assistive technology they need and want. By doing so, we empower Vermonters with enhanced independence, productivity and confidence for greater inclusion across our state.

DEMONSTRATIONS
We demonstrate specific devices and software for consumers and/or their representatives, allow them to personally try out equipment, and answer questions to help them make informed decisions. Demonstrations are provided in the community and at our Regional Tryout Centers.

EQUIPMENT LOANS
Consumers and professionals can receive equipment loans for up to 30 days to evaluate various assistive technology devices to find what fits their needs by visiting www.vt.at4all.com.

RE-UTILIZATION

TRAINING & WORKSHOPS
Our team tailors instructional sessions and presentations to increase participants’ knowledge, skills, and competencies regarding devices or various categories of equipment or software.

PUBLIC AWARENESS
We provide informational displays and equipment demonstrations for outreach events including open houses, support group meetings, professional meetings, conferences and exhibitions.

TECHNICAL ASSISTANCE TO ORGANIZATIONS
We act as a valuable resource for organizations, programs and agencies by engaging them in problem-solving activities to help improve services, management, policies and outcomes regarding the use of assistive technology.
ONLINE INVENTORY OF ASSISTIVE TECHNOLOGY

DID YOU KNOW
You can view the VT Assistive Technology Program’s entire device inventory online?
